The Foreign Quarterly Review,

Blackwood's Edinburgh Magazine

—o—

THE above Periodicals are reprinted in New-York, immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals —BLACKWOOD'S MAGAZINE being an exact facsimile of the Edinburgh edition

The wide spread fame of these splendid Periodicals renders it needless to say much in their praise As literary organs, they stand far in advance of any works of a similar stamp now published while the political complexion of each is marked by a dignity, candor and forbearance not often found in works of a party character

They embrace the views of the three great parties in England—Whig Tory and Radical—"Blackwood" and the "London Quarterly" are Tory, the "Edinburgh Review" Whig and the "Westminster," Radical The "Foreign Quarterly" is purely literary being devoted principally to criticisms on foreign Continental Works

The prices of the RE PRINTS are less than one third of those of the foreign copies and while they are equally well got up, they afford all that advantage to the American over the English reader

The Sugar-Coated Pills.

A NEW SARSAPARILLA PREPARATION.

To cure Diseases, Purify the Blood! To avoid them, keep it pure!!

That PREDISPOSITION which exposes the human frame to the infection and virulence of every class of disorders, proceeds directly or indirectly, from a morbid state of the system caused by

IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS The originator of the only true and genuine Sugar coated Pills, most respectfully informs the enlightened public, that this new and elegant preparation can be obtained only from advertised agents and at the proprietor's establishment No 323 Broadway, N York —Price 25 cents a single box 5 boxes for one dollar

G W LADD Agent for Bangor

Among the numerous remedies which stand reputable on the basis of an ancient name, are none perhaps which have acquired so great celebrity, and extensive use in so short a time as this invaluable article —They have gained their high reputation, alone by their good works Those who once try them always use them again They are grateful to the stomach,—they improve the functions of secretion, nutrition and circulation They restore digestion and appetite and create a natural warmth inwardly, which glows through the whole system giving it greater vitality and animation The experience of thousands attest to their good effects After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors have forsaken his system His digestive organs perform their proper functions, his blood regains its wonted purity, the oppressive sense of weakness and pain departs, and his body becomes endowed with renewed strength and vigor—while the mind resumes its original vivacity and clearness Such are the results produced by Halsey's Sugar coated Pills, the mildest, yet most effectual preparation of the class in use

In BILIOUS complaints, Costiveness, Indigestion, Dyspepsy, and all other disorders of the stomach they produce the most happy results For Sores, Boils Saltrheum, Tetter Erysipelas, Eruptions of the Skin, Scrofulous complaints and many other like diseases arising from IMPURE BLOOD, they have become highly celebrated Hundreds of certificates have been received from individuals who after having taken them for a few weeks, (according to their directions which accompany the box) were cured of the most afflicting cases of *scrofulous affections* They give *Good Blood for Bad* Bottles of the boasted Sarsaparilla contain less of the true virtues of that valuable plant and are less effectual than a single box of these extraordinary Pills In Colds Coughs, Influenza, Sore Throat, Headache, Giddiness, &c they are recommended with entire confidence, the relief in these cases is quick and permanent For Fever and Ague, Fevers Asthma, Piles Loss of Appetite, Dropsy, Jaundice Worms, Looseness, General Debility, and many of the various other diseases to which the human system is liable they have proved an infallible remedy Their action on the bowels is of the mildest character, even *over doses* never cause griping or unpleasantness, yet they are searching and efficient It is impossible by words, to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class, a trial only will explain the wide difference The unhappy invalid after having *tested* but a *single box* of them, will with joy for the unexampled change wrought in his health, bear testimony to their uncommon virtues

N B The *coating* of *sugar* adds nothing to the great virtues of the Magic Life Pills, it is their uncommon powers in promoting health, on which all their merits stand, notwithstanding this they are the original sugar coated pills The proprietor made this valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills coated them and through the base and silly pretension to a patent are distributing them about the country, deceiving the public by disposing of them unjustly through the already acquired reputation and popularity of the genuine *Halsey's Sugar-coated Pills* In order to get the true and original sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box, and buy only of advertised agents

THESE pills are an effectual assistant of nature, having the same kind of action on the human body that storms and hurricanes have upon the air, or that the tides have upon the ocean, they purify What so judicious as the copying Nature! We see, when she wishes to become purified, that she puts herself in commotion, which has the purifying effect And so we, to induce purity in our bodies, bring about a natural commotion by artificial means, and experience has taught those who have adopted this course and who for this purpose have used these pills, that they were in the right, because the result has been sound health, or in other words, every organ has become restored to a state of purity consistent with its functions and of though there are many whose bodies are in such a state of debility and suffering, and in whom there is such a predisposition for decay, that all which can reasonably be expected is temporary relief, nevertheless, many persons who have commenced with them under the most trying circumstances of bodily affliction, when every other means and medicine have proved altogether unavailing, have been restored to health and happiness from their use, and the consequence is, they are now recommended by thousands of persons whom they have cured of consumption, influenza, colds indigestion, dyspepsia, headache, and a sense of fulness in the back part of the head, usually the symptoms of apoplexy jaundice, fever and ague, bilious, scarlet, yellow, and common fevers of all kinds, asthma, gout, rheumatism, nervous diseases, liver complaint pleurisy, inward, weakness, depression of the spirits, ruptures, inflammation, sore eyes, fits, palsy, dropsy, small pox, measles, croup, cough, whooping cough, quinsey, cholic, cholera morbus, gravel, worms, dysentery, deafness, ringing noises in the head, king's evil, scrofula, erysipelas, or St Anthony's fire, salt rheum, white swellings, ulcers, some of thirty year's standing, cancers, tumors, swelled feet and legs, piles, costiveness, all eruptions of the skin, frightful dreams, female complaints of every kind, especially obstructions, relaxations &c &c

NOW TO THE TESTIMONY.

PREJUDICE however deep rooted and long standing must yield to simple, ungarnished statements of fact, like the following —Captain Thompson is well known in this city, and in many parts of this State and his statements are highly important Read them

BANGOR, May 18 1846

I have been very severely afflicted with a distressing cough, attended with asthma For thirty years especially during the winter season, for some eight or ten years past I have expended a large amount of money in endeavoring to regain my health and have tried nearly all the preparations of the day with little or no benefit During the fore part of last winter I was much worse than usual—very much worn down with my cough and emaciated so that I was unable to attend to business I felt discouraged and began to conclude with my friends that my case was a hopeless one Whilst in this situation, a friend called to see me and advised me to send and purchase a bottle of Hunter's Pulmonary Balsam and a box of the Indian Dyspepsia Pills prepared by CURTIS & CO of this city, saying he had made use of them in a case very similar and had been cured I had little or no confidence in any patent medicines, having tried many and found no relief and objected sending for them for some time At the earnest solicitation of several who declared they had found relief from them I purchased a bottle of the Balsam and a box of the Pills Very soon after I commenced using them, I was relieved from the distress at my lungs, my cough became loose, and I raised easy Soon after my cough began to disappear and in less than a month it was perfectly well My lungs now appear perfectly well, and have been so for months I believe the Balsam and Pills SAVED MY LIFE I have made use of it since for my children in cases of colds and coughs, and it has universally given them immediate relief and cured the cough I do most cheerfully recommend it to the public, believing it the *best article in the world* for all lung complaints asthma, &c JOHN THOMPSON

John S. Sayward,—Editor.

WEDNESDAY, SEPT. 30, 1846.

Latest from Mexico.

Advices from the city of Mexico to the last of August have come to hand, by the way of Havana Paredes remained a close prisoner in the castle of Perote, and Santa Anna was still at his residence at Jalapa The inhabitants of Mexico were indulging in demonstrations of joy at the restoration of Santa Anna to power The Mexican prints do not boast over the loss of the Truxton

Gen Taylor crossed the San Juan on the 6th, and took up his line of march for Seralvo on the morning of the 7th General Worth and Col Smith were stationed at Seralvo waiting his arrival Gen Tayler would not proceed further than Seralvo, until urther orders from Government

Twelve thousand American troops are marching from Monterey Gen Patterson was left in command Gen Ampudia arrived at Monterey with three thousand men He was appointed commander of the army of the North, and prohibits communication with the American army

The regiment of Kentucky mounted volunteers, wherein Cassius M Clay and T F Marshall command companies, arrived at Lavacca Col Harney who left San Antonia without orders, was ordered back and put under arrest by Gen Taylor Rumor—on his return a portion of his baggage was surprised and cut off by Mexicans

Exchange of Prisoners.

The Washington Union denies the report that Com Conner refused the offer of the Mexicans to exchange Capt Carpenter of the Truxton, and his officers and men, for Gen Vega and his three companions The Union states that Com Conner submitted the proposition to the Government at Washington, and that the Government, so far from refusing it, has sent such instructions as will lead to the exchange To refuse such an offer would be either valuing Gen. Vega very highly, or placing a low estimate on Capt Carpenter and his fifty men, more or less

Another Spec of War.

We learn from the Cincinnati Times, that all the troops now at the Newport Barracks have been ordered to proceed forthwith to the interior of Ohio, for the purpose of removing the Indians, by force of arms, from the Miami reservation, purchased not long since from the tribe, to their lands west of the Mississippi They refuse to move, as they are dissatisfied with their new homes, from the reports of persons sent to view it

Whig Success.

The Whigs of Portland on Monday last elected Thomas Chadwick and Wm Goodenow, both Whigs, to the Legislature We hear from Jefferson class, by the way of Boston, that John N Bond, Whig, was elected there on the first trial A Loco, has been chosen in Scarboro'—so the House now stands 45 Whigs and 45 Locos

☞ Next Monday will probably settle the question as to the political character of the next House of Representatives The success which has attended the Whigs in the special elections in Representative districts, encourages us in the hope that the opposition to the leaders of the Loco party will see to it that no necessary and proper co-operation be omitted in order to secure the Legislature.

☞ The Democrat gives the vote in Madawaska plantation Dana 115 Bronson none In Van Buren plantation Dana 87—Bronson none These two plantations are in Aroostook county and under the immediate control of the Catholic school master employed by the State, and where, through the operations of the Land office, it is made inconvenient and unprofitable for men to vote any but the loco ticket The state of the vote tells of the efficiency of these means among the French settlers on the border

☞ Mr Williams has his Bathing House now in full operation on Morse's Wharf near the foot of Spring street We have not yet had time to visit it but those who have, speak of it in the highest terms This establishment if suitably patronized will save much sickness in our community and prove one of the best promoters of human comfort

We advise every young man to purchase a season ticket

☞ The Bangor Democrat of yesterday, pays the Liberty party the compliment of doubting its virtue by telling it, under the figure of a "laborious female,' that it has dallied and flirted until it has lost its reputation' The sweet dear wolf of the Democrat, with teeth concealed, and claws covered, purringly offers to protect the tender Lamb' This attempted cunning of the Democrat is a little too transparent for effective use

☞ S W Cole, Esq, the accomplished editor of the Boston Cultivator, an excellent paper, recommends the following list of winter apples as highly worthy cultivation 'Baldwin, Late Baldwin, Minister, Rhode Island Greening, Canada or Seaver Sweet, and Danvers Winter Sweet'

Fire at Orrington.

On Saturday night last the dwelling house of Daniel Stearns in Orrington was consumed by fire. The furniture partially saved One young man lost his clothes and sixty dollars in money No insurance on the property

☞ Mr John R. Nichols, of Salem, has raised in his garden, this season, a number of mammoth cucumbers, one of which is 16½ inches in length, and 11 inches in circumference, within four inches of each end

☞ The truly religious whose evidence from heaven is clear and well grounded, have a frequent tide of joy springing up in their minds beyond expression something more moving and satisfactory than any one can imagine but they that feel it.

☞ We are indebted to Rev Mr Nye, to Jerome & Co's Express, to Col Maxwell and the officers of the Governor for papers received yesterday in advance of the mail.

Rev. Mr. Pomroy—at Home.

Concluded.

Mr Pomroy described his passage along the coast—his spending a Sabbath in tents on the spot where old Tyre stood and there reading the bible account of its splendor. All is now desolate and the ruins scattered in the sea On an island there are a few poor miserable inhabitants, engaged in fishing

In passing over from Tyre to the sea of Galilee the whole country is filled with gushing fountains The atmosphere is exceedingly transparent and as he looked down upon the sea of Galilee and the valley of Jordan, he had within range of his vision more than half of the ancient Jewish land Verdure and flowers were on every hand, and the whole scene was one of surpassing tranquility and loveliness—Nature seemed to be at rest—keeping a quiet Sabbath in sweet repose The city of Tiberias is poor but still surrounded by walls There is too, the little village of Magdalene, which was the chosen abode of the Savior He looked for Capernaum but only a few broken stones marked the place

He had met with a little poem written at the sea of Galilee by a young clergyman, a Scotchman, a rare spirit, which had early gone home to heaven, and which so fully expressed his own feelings that he would repeat it

The Sea of Galilee.

How pleasant to me, thy deep blue wave,
O Sea of Galilee,
For the glorious One, who came to save,
Hath often stood by thee

Fair are the lakes in the land I love,
Where pine and heather grow,
But thou hast loveliness far above
What nature can bestow

It is not that the fig tree grows,
And palms in thy soft air,
But that Sharon's fair and bleeding rose
Once shed its fragrance there

It is not that the wild Gazelle
Comes down to drink thy tide,
But that He who was pierced to save from Hell,
Oft wandered by thy side

Graceful around thee, the mountains meet,
Thou calm reposing sea,
But, oh "fairmore, the beautiful feet
Of Jesus stood by thee.

Those days are past. Chorazin, where?
Bethsaida, where art thou?
His tent the wild Arab pitches there,
The wild reeds shade thy brow

Tell me, ye shouldering fragments, tell,
Was the Saviour's city here,
Lifted to Heaven, has it sunk to Hell,
With none to shed a tear?

Would that my flock from thee might learn,
How days of grace will flee,
How all, an offered Christ who spurn
Shall mourn at last like thee

O Savior! gone to God's right hand,
Yet the same Saviour still,
Graven on thy heart is this lovely strand,
And every fragrant hill

O grant me, Lord, by this sacred wave,
Three-fold thy love divine,
That I may feed, till I find my grave,
Thy flock, both Feed and tend

In his journey towards Jerusalem he passed the plain of Esdralon and near the ancient city of Nain—drank at the fountain of Jezreel A portion of this journey exposed them to perils, as many of the people are thieves, but the party passed without injury or damage He sat down at Jacob's well and there read the fourth chapter of John's Gospel The depth of this well was found by measurement, to be one hundred feet deep

In journeying sixteen days from Beroot he looked for the first time on Jerusalem, the most interesting city, in many respects, on the globe He remained in the city for three weeks, visiting all its interesting scenes, and walked out to Bethany. He at length came to Lydia and there set sail for Beroot He spent ten weeks in Palestine, often reading the bible descriptions

From Beroot, after spending fifteen days quarantine at Smyrna, he came to Constantinople, where he met the Convention of Missionaries A more devoted band of men cannot be found on the face of the earth He was there for ten days and spent a portion of each with them—it costs something to be a christian there, on account of many persecutions At one of the meetings all were singing a sort of chant with their eyes shut, when he observed the tears roll down the cheeks of one of the men He inquired what they were singing and was told it was a translation of the hymn,

"Rock of ages cleft for me
Let me hide myself in thee"

He passed through Greece, spent some time in Germany, spent a night at Worms, where Luther read his address and defence, and thence proceeded to England

Here the great attraction was the Evangelical alliance Some fifteen or twenty denominations, of many nations, were there represented by some eight hundred or a thousand clergymen They were in session during fourteen days and an alliance established which will stand for ages In this Convention no difficulty was felt, not a ripple stirred the surface on account of denominational matters The only trouble was on account of American slavery—This troubles our country and the world and will continue to do so until it ceases to exist—The great object of the alliance was effected in triumph, and its influence will be felt to the end of the world A full account of the proceedings will be published

He again felt himself at home He had learned some things which may be of account in his future labors

Two convictions are deepened upon his mind—One is that the Gospel is the only remedy for the sufferings of humanity in any land under heaven He could tell of poverty and oppression, but if the Gospel does not elevate and soften the heart we must despair

The other conviction is this, that the affairs of this world are, in the providence of God, approaching a grand crisis Every where there are signs, if not in the heavens, certainly in the earth, that God in his providence, means to have mercy in the earth, where there has been so much suffering This is felt by many in Italy and elsewhere. The Turkish power is now but a rope of sand kept together by mutual jealosies The gospel, in its power is pervading all lands, and the day is approaching when voices shall be heard saying—

The kingdom is our Lord's, and his Christ and he shall reign forever and ever

☞ 'The Democrat' has the faculty of drawing comfort from strange sources It last week accounted for the result of the Gubernatorial vote by their being a diminished Loco vote and an increased vote of the opposition It now comforts itself on its losses in Representatives, by saying that some of them are in strong Loco districts where it might easily have been prevented!

Highly Important from Nauvoo—The War Ended.

The Alvarado arrived this morning at 11 o'clock from Keokuk, bringing intelligence from Nauvoo up to Friday morning Some skirmishing took place on Tuesday, but so far as can be ascertained nothing serious resulted During Wednesday negotiations were in progress between the parties, and on Thursday morning it was finally concluded that the besieged, or those of them who had taken part in the hostilities of the few days previous, should at once capitulate, lay down their arms, and leave the city and State within five days The number embraced in this requirement is variously estimated at from three to seven hundred, about one hundred and fifty only of whom are Mormons

On Thursday evening the mobocrats marched in, and took formal possession of the city The steamboat Osprey had already left for Strangtown, a Mormon settlement in Wisconsin, crowded with passengers The Alvarado brought a number of the proscribed citizens to this place Some of them go eastward The total of killed and wounded in the different skirmishes is not yet ascertained but it is believed to be not very great Capt Smith, of Carthage, died of his wounds before reaching home Several others of the parties and a few of the new citizens are also said to have been mortally wounded Thus are we called upon to record another triumph of the spirit of misrule and outlawry—St Louis Union extra, 19th.

☞ The following truthful and suggestive little paragraph, just of the size and the character to be copied in all the papers, is the work of one of the editors of the Portland Bulletin, Mr Colesworthy, a man of uncommon common sense, and of course an exceedingly useful man in the world He is a mechanic and a pattern of frugality and of industry and is the only editor we know of except one, who practices fully up to his preaching

Pride and Poverty.

How often they go together The young men and the young women who make the best out side appearance—who wear the finest cloth and the most costly dress, are not always the wealthiest Sometimes they punch their pellies to cover their backs When we see poor girls or poor young men dressed out for show, we cannot but pity their folly We have seen elegant furniture carried into a house, where we knew the person could not pay his just debts It is the height of folly to attempt to keep up appearances where there is no foundation Would not a man be a fool to build his house upon the sand? As great a fool is he who erects a splendid edifice, while he is not able to finish a single room inside and perhaps never will be Pride and show have ruined many a person Let all beware Make no deceitful appearances, and if you are really poor, have the manliness to acknowledge it at once. It will save you a world of mortification

☞ Mr Robert Owen has crossed the Atlantic four times in five months and a half and he is now upwards of seventy five years of age—The old gentleman is said to be making an effort to bring the two nations to a right understanding of his views of harmony and progress

☞ It is seldom that an apprentice who makes his master's interest his own, does not receive a reward by kindness and favors while an apprentice, and in after life he is quite sure to be prosperous in business, and a respected and useful man.

☞ The Youth's Cabinet for October has been received, examined, and found worthy high commendation Its editor knows how to make a good book for the young folks

☞ The price of Butter in our market has run up to a high notch, from 17 to 20 cents a pound

A committee of nine of the Legislature of Alabama, have expressed apprehension that Kentucky, Maryland, Virginia, Tennessee and Arkansas, will soon abolish slavery

The editor of the Republican Era says that there is but one member of the Michigan State convention which he should like to LICK and that is Mr CANDEE.

☞ The wife of Mr Joseph Bradford of Portland recently fell down stairs in the night time and was greatly injured

☞ The county Cattle Show will be held at Levant Village this day

☞ In New York the Philanthropists are getting up libraries for prisons

The French Gulf Squadron had arrived at Havana at the last accounts, destination unknown

☞ We have at last, what has long been needed in this city—a Bathing establishment See card in another column

☞ There was no choice of Representative in Frankfort on Monday last

☞ Mr Hopkins's singing school commences *this* evening, at Dow's Hall

☞ Gen Wilson has returned from an eight weeks tour at the West, visiting Iowa, Mackinaw, and Lake Superior The story of his fixing his residence in Iowa, has no other foundation than editorial presumption in Galena, through which he passed, accompanied with a portion of his family—Keene Sentinel

To the Editor of the Whig & Courier

If you will insert the following old and excellent piece of poetry you will oblige me and your old friend Col Henry Little—and perhaps a thousand others I have sung it a few times in your city, and the poetry has been requested of me a hundred times The music is already published, but the poetry accompanying it is much inferior to the *old fashioned* bible' Respectfully Yours,

Bangor Sept 28th

The Old Fashioned Bible.

"How pasteinly pleasing the fond recollection
Of youthful emotions and innocent joy,
When blest with parental advice and affection,
Surrounded with mercies and peace from on high
I still view the chair of my sire and my mother,
The seats of their offspring arranged on each hand,
And that blessed book which excels every other,
The family Bible that lay on the stand'
The old fashioned bible—the dear blessed bible
The family bible that lay on the stand

That bible, the volume of God's inspiration,
At morn and at evening could yield us delight,
The prayer of our sire was a sweet invocation
For mercy by day and safety through night.
Our hymns of devotion, in harmony swelling,
Alwarm from the heart of a family band,
Half raised us from earth to that rapturous dwelling,
Described in the bible that lay on the stand
The old fashioned bible &c.

Ye scenes of tranquility long have we parted,
My hopes almost gone, and my parents no more,
In sorrow and sadness, I roam broken hearted
And wander alone on a far distant shore,
Yet how can I doubt a dear Savior's protection—
Forgetful of gifts from his bountiful hand!
O let me with patience receive his connection
And thank on the bible that lay on the stand,
The old fashioned bible, the dear blessed bible
The family bible that lay on the stand"

American Divines.

A correspondent of the New York Recorder speaks in the highest terms of the American clergymen who appeared at the recent meeting of the Evangelical Alliance, in London He says—

Irrespective of this vexed question, the visit of your excellent countrymen has proved very acceptable to our families and churches. I hear their praises sounded wherever I go. Dr Cox is universally spoken of as the most commanding speaker in the conference, and he also bore the palm at the public meetings. The sermons of American divines have been much commended, and from their example some of our own preachers might profitably learn to point their sentiments, agitate their argumentation, and retrench their redundancies The English pulpit is too declamatory, the Scottish too dry, the American, if we may judge from the specimens we have had, appears to hold the *juste milieu* between them We all regret that our transatlantic friends were so hard worked as not to have leisure for looking about them

Senator Cameron.

This gentleman, one of the three administration Senators, who opposed the Polk Tariff, does not, so far as we can learn, recede from his positions at all, nor attempt to play the poor fiend, that Pennsylvania will fare the better the more steadily she votes for the administration

Mr Cameron speaks openly, freely and boldly. We find in the papers the following extract from a letter recently addressed by him to citizens of Danville, Pa, on the subject of the new Tariff Would it be too much to ask to have this extract published in some of the administration papers in *Maine*, where, we are sure, there are great numbers of 'democrats, who agree with Mr Cameron in all particulars

[Portland Adv

"A few months will show the want of wisdom in its principles and details, and prove its failure as a revenue measure The very men who have forced it upon us, all of whom deny its paternity, will probably soon seek an excuse for its change All thriftless persons are discontented with their own situations, and envious of the prosperity of their more frugal neighbors—Neither men nor States who do not work can be prosperous, and our southern fellow citizens will find that no reduction of the tariff will make them rich, nor bring us down to their condition They may retard our progress for a time, but no system of laws which they can force upon us, will destroy the ultimate prosperity of Pennsylvania Until we can accomplish its repeal in a constitutional way, we must make the best of this law, and by greater economy, and more intense labor, make up in some degree, for the advantages which it takes from us and gives to the workmen of foreign countries The farmers of the West will soon see that they have been deceived by the promised British market for their agricultural products, and that instead of higher prices, they will find them reduced with the prostration of the home market, hitherto furnished them by the manufactories of the North Having thus learned the truth of the old fashioned democratic doctrine, that agriculture, manufactures, commerce, and the mechanic arts are mutually dependent on each other, we may expect to see them again acting with their mutual allies of the North for the common good'

Mr. McLane.

The Baltimore correspondent of the Boston Atlas, writes—

Mr McLane has resigned the presidency of the Baltimore and Ohio Railroad The rumor that he had been or would be offered the State Department by Mr Polk, has no foundation—and it is doubtful if he would accept it if it were offered His aspirations look to a higher political office than that He has been very unwell since he returned, and is very far from being able to endure the fatigue and excitement of any pressing public matter such as he might encounter in the State Department

The Seasons—Crops—Lumbering Business.

The past has been a remarkable warm summer throughout the country In this part of it there have been more intensely hot days and sweltering nights than in several previous years put together The northern cities were almost depopulated for a time by the outpouring to the seaside and other retreats to escape from the melting heat The fashionable resorts were thronged by "the upper ten thousand" and the wiser multitude in search of comfort located wherever they could find a cool albeit in a fisherman's hut on a barren coast, or in a log house on the mountain's side in the deep forest

The warm season was much longer than usual—No crop has been injured by the frost—this year peaches and grapes might have been grown to perfection in this latitude—Before there was any frost, bread was made north and east of Bangor from corn which grew this year All the corn planted fully matured, the crop is uncommonly good and the only thing that we could wish different is the quantity of seed planted—previous seasons were so unfavorable that there was small encouragement to plant to the extent

Wheat with us suffered considerably from the weevil, but rye and oats did well, and the barns are filled with hay The potato crop has been comparatively good Less were planted than usual, and the yield has not been large, but the potatoes raised are mealy and palatable, such as they were before attacked by the plague The rot has done but little injury the present year in this region, and we may now indulge the hope that this vegetable scourge is "on its legs" There has been an average quantity of fruit raised—and upon the whole it has been an uncommonly good season for the farmers We heartily congratulate them on their prosperity, and trust they will be blest with abundant harvests for many years to come

This year the lumbermen have had many drawbacks to their success. In the first place they paid very high for stumpage much more than the cost of operating and the price of lumber would justify—It was not a very good winter to lumber, the snow fell late and went off early—the spring freshet was not favorable for running logs, there was no summer freshet and the fall rise of the water will be late It has been difficult, too, a part of the time to run the boards from the mills to the place of shipment. These are some of the inconveniences and drawbacks which men engaged in this business have experienced Timber is becoming scarce—it is obtained from more remote points and at increased hazard and expense—experience has proved that present and former market prices have been too low for the cost and risk—we therefore anticipate a rise in future in the price of boards and timber

The sales of public lands and permits to cut timber have been small this year—indeed Maine has but little land or timber left to sell and the operations in the woods the coming winter will greatly fall off from other years—Democrat

Dip Your Shingles in Oil.

Mr B Nason, of this town, showed us the other day a few pine shingles which he took off the edge of the roof of his house while making some alterations These shingles had been on the house over *twenty seven* years, and are now as *sound as when first put on* What is the cause of this wonderful preservation, in this instance, while in other cases shingles have often rotted so much in five or eight years as to make it necessary to re-shingle the roof? The cause is this When these shingles were put on, they were simply dipped in *hot oil* It will be well for carpenters to note this fact

A hard case.

An old "Jour" called on us yesterday, who is making his tour of the Union and Canada, for about the twentieth time He has travelled all over Europe, besides; and—this is the most remarkable part of the business—although we have known him some twelve years, we have never yet seen him sober He is a man of great intelligence, liberal education, and an excellent workman. When we were an apprentice, he was a journeyman in the office; and we are indebted to his instruction for a considerable share of our knowledge of the 'art preservative of all arts'—Pittsburg Gaz.

Modesty.

Who shall win the prize? There was a meeting of the flowers, and the judge was appointed to award the prize of beauty.

"Who shall win the prize?" asks the Rose proudly rushing forward in blushing beauty with full assurance of its winning worth

"Who shall win the prize?" asked the rest of the flowers, as they came forward, each conscious of its attraction, and each equally sure of receiving the reward

"I will take a peep at the assemblage," thought the Violet, not intending to make one of the company, "and see the beauties as they pass"

Just as it was raising its modest head from its humble and retiring corner, and was looking in upon the meeting, the judge rose to render his decree "To the *Violet*," said he, "I award the prize of beauty, for there is no trait more rare, none more enchantingly beautiful than—MODESTY"

MEDICAL PRESCRIPTIONS are mostly written in characters wholly unknown to the patient or his friends, and yet these same physicians charge quackery upon the venders of the preparations or prescriptions of the most learned and experienced physicians, because the component parts are a secret The cause of such inconsistency the people generally understand—to be Royalty or a division of the profits of the healing art That no compound shall be used of which they do not know every item is the rule of the upstart, and can only be carried out in many cases by the unprincipled and heartless—Take, for example, the Pain Extractor, and all who know anything of it are forced to admit that no prescription or treatment of a Burn, Scald, or any external inflamation or sore, bears the slightest comparison to the powers and virtues of this salve, and yet there are doctors who refuse to use it even in the most distressing agonies the human system can suffer, because the proprietors do not give them the recipe' Such conduct is so inhuman that its consequences are reflected upon the physician, and people know and *will have* the remedy, and keep it by them, and the most enlightened and richest physicians in this city, do not hesitate to prescribe and use it

A Valuable Testimony.

We like, at all times, to give credit when credit is due, and if at the same time we can relieve the distressed, we are doubly gratified, we therefore give the following voluntary testimony as to the beneficial effects of Wistar's Balsam of Wild Cherry, by the editor of the Columbia South Carolinian, who appears to have obtained great relief from its use Old Dominion, Portsmouth, Va

TO THE PUBLIC.

E. & J. MOULTON & CO. would inform those who are indebted to them by note or account that in consequence of having been hardly dealt with by those from whom they have as they think deserved better treatment they are under the necessity of urging them to make every proper exertion to pay them what may be their due, or such part thereof as they may be able to as we have now to depend upon collections to meet some engagements of a particular honorary character—and to pay laborers whom we employ, and furnish supplies to carry on lumbering operations that cannot in justice to ourselves or creditors be abandoned until they are matured and the effects appropriated toward the liquidation of our indebtedness In justice to ourselves we would say to our creditors, that our present position ought to have been avoided, that a negotiation which we commenced with two of our Boston creditors whom we induced to visit this place for the purpose of completing it it had been acted upon in good faith by them the evils resulting from impaired credit would have been avoided Those individuals may find some palliating circumstances for the course of conduct pursued as they sought advice of those whose pecuniary interest is promoted by the misfortunes of the trading community and the information they received was not the truth—yet they cannot say without faltering that they have acted a manly part nor can they say in conscience that they have done by us as they would be done by under like circumstances

The result of their course will prevent our doing justice to ourselves or the rest of our creditors As our credit and means to a great extent, are placed beyond our control having to depend for the present upon collections to meet honorary paper and carry on lumbering operations in addition—But of this they may rest assured all of our debts will be paid in full to the utmost farthing and probably by the month of June next unless we may make some exceptions in favor of such as treat or have treated us badly Such persons perhaps ought not to complain if we pay them in Jesuit coin by making them wait until they repent We would say in conclusion to all of those to whom we may be indebted be assured that you will all get your pay in full as we have full faith that after making an allowance of twenty thousand dollars for bad and doubtful debts and other contingent losses that we can pay our debts and have twenty thousand dollars or more of good property left to divide amongst ourselves Any property that we have under our control that our creditors may prefer taking for their debts in lieu of waiting, for their money they can have on fair terms The most of our creditors we have already secured partially We take this public method of making this statement for the benefit of those who may be interested as we have not time to write to each one individually

BUCHAN'S
HUNGARIAN BALSAM
OF LIFE.

THE
GREAT ENGLISH REMEDY
For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary diseases, still stands unrivalled and unsurpassed as the most elegant, agreeable, and effectual curative of these formidable complaints, now known to the civilized world

Three years of trial in the *United States*, during which time it has been distributed from Maine to Florida, has only served to establish its pre eminent *merit* in all parts of the country, as the great and I
ONLY RELIABLE REMEDY
in the worst cases of *Pulmonary* disease, and the best and most agreeable curative of all the slight forms of colds, cough and inflammation, that can possibly be used

SPITTING OF BLOOD' This frightful symptom of approaching Consumption is speedily checked and prevented by the use of Buchan's Hungarian Balsam, which heals the affected membrane, removes the incipient tubercles, and restores those vital organs, the lungs, to a sound and healthy *condition*

REMEMBER THIS Spitting of Blood always arises from a tendency to Tuberculous disease and if not checked, at the outset, will sooner or later determine in death A person who raises blood once, will raise blood again, unless a *proper* curative is immediately employed'

PAIN IN THE SIDE' This distressing symptom of Consumption arises from inflammation of the Lungs, or the Membrane call d the Pleura, or f om Bronchial affection of the air passages In either case it is a very dangerous indication of disease It prevents full and free breathing and wears away the natural strength of the system The cause of this symptom should be removed at once, and nothing can possibly effect that object so speedily and happily as the Great English Remedy, discovered by Dr Buchan, which is entirely vegetable in its ingredients, and perfectly harmless to all its qualities

LIVER COMPLAINT In cases of Consumption the Liver is always more or less affected, and also the Spleen, Pleura, and small intestines On dissecting Consumptive patients Tubercles are often found in all these organs particularly upon the Liver, which also becomes fatty, oily and swelled The effect of the Hungarian Balsam in diseases of the Liver, especially if it be of an ulcerous nature is direct and powerful *Simple disease of the Liver, unattended by Consumption is speedily cured by its use*

WINTER COUGH The harsh, dry, harking winter cough which *afflicts old people*, and invalids in a low state of health is happily affected by the Hungarian Balsam

It warms moistens, and stimulates the *whole breathing apparatus* removes all morbid mucus, and other foul matter, purifies and animates the blood improves the secretive *power* of the Liver Spleen and other large glands, and the digestive organs, and imparts new life to the *weak* and an *actuated system*

BRONCHITIS Bronchitis, Difficulty of Breathing Hack Cough a slimy expectoration, with all other symptoms are one) by an affection of the air tu ca le ( ) in from the throat to the lungs are directly and specifically cured by the use of the admirable remedy invented by *Dr Buchan*.

This is a very painful wearing and in urious complaint and always has a powerful tendency to inflame and soften the Lungs and thereby to induce the worst form of Pulmonary disease Be warned in time, ye afflicted' and employ this valuable remedy

TUBERCLES ON THE LUNGS' The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs *Incredible* as this is generally esteemed we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect, in all cases where there is no natural organic defect In fact, so confident is the American Agent of its power to cure the worst *form* of this disease that he prefers (as he has frequently stated) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians, rather than by persons affected with some slighter form of disease—in order that its triumphs might be *more* apparent He boldly declares that it will cure Tuberculous disease and confidently solicits a trial in the *worst of cases*

EXPECTORATION' Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs The Cough, which is so distressing, is simply the result of a desire to expectorate, and as long as foul matter exists in the air passage it will continue to irritate the membrane and provoke a cough Coughing is an attempt to throw off the matter, and expectoration gives great *relief* Inability to expectorate in the latter stages of Consumption is the cause of death

The Hungarian Balsam is a *great Expectorant*—It dissolves the *morbid* and diseased matter in the air passage changes it from a thick, glutinous substance to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient There is no better medicine in the world, if its expectorant quality alone be considered

SPASMODIC ASTHMA Simple or Spasmodic Asthma, has no better remedy than the Hungarian Balsam This painful and destructive affection which resists almost every thing else yields to the all powerful influence of this great remedy, as readily as any other form of Pectoral disease

CONSUMPTION' Consumption has been graphically described as a' *Shrinking of one's self*" The Hungarian Balsam, by its cleansing warming, softening and animating power, produces, not shrinking but *expansion*'

Before its delightful influence, all chills, fever night sweats, costiveness blueness of the nails, a hot flushed skin, an uncertain strength, emaciation and decline—disappear, like the poisonous dews of night before the glorious morning sun' This is no delusion, but demonstrable fact, sustained by incontestible proof from all parts of the country

BE WISE TO DAY' Delay in any case of Consumptive tendency, is emphatically Death under all ordinary treatment The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE If you have any symptoms above described, be advised in time

Sold in large bottles at only one dollar per bottle

CONSUMPTION.

AND the best medicine known to man for Asthma of every stage Liver Complaints, Bronchitis, Influenza, Coughs, Colds, Bleeding of the Lungs, Shortness of Breath, pains and weakness in the side, breast, &c and all other diseases of the

PULMONARY ORGANS.

A very important disease over which this 'Balsam' exerts a very powerful influence is that of a

DISEASED LIVER.

In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances when patients had endured *long* and *severe suffering* from the disease without receiving the least benefit from various remedies, and when MERCURY had been *resorted* to in vain, the use of this Balsam has restored the LIVER to a healthy action, and in many instances effected

PERMANENT CURES,

after every known remedy had failed to produce this desired effect

Opinion of a Regular Physician.

Exeter, Me, Sept 30, 1845

This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs, for two years past, and many bottles to my knowledge have been used by my patients, all with beneficial results In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure

E BOYDEN Physician at Exeter Corner

NO QUACKERY! NO DECEPTION'

All published statements of cures performed by this medicine are in every respect TRUE

BEWARE OF COUNTERFEITS AND IMITATIONS The unparalleled and astonishing efficacy of Dr Wistar's Balsam of Wild Cherry in all the diseases for which it is recommended curing many cases after the skill of the best physicians was unavailing has effected a large and increasing demand for it This fact has caused several unprincipled counterfeiters and imitators to palm off spurious mixtures, of *similar name and appearance*, for the genuine Balsam

Temperance! Temperance.

WHERE are all the teetotallers and other temperance folks, who have so long and so loudly been calling for a thorough going TEMPERANCE HOUSE in Augusta, and have complained so much and mourned so deeply, because they were under the necessity, for want of such a house, of stopping at rum taverns? Do they not know that the Gage House is, in all respects, just such an one as they want? It has been fitted up at great expense, for a public house, it has excellent accommodations, and is in a most delightful situation It is now kept by Mr CHAS FREEMAN, a distinguished member of the Sons of Temperance, a very attentive and obliging Landlord who has incurred great and onerous liabilities in order to accommodate the public in this respect—Let them see to it that he is well sustained

The Two Part Cooking Stove.

THE subscribers after great expenditure have succeeded in bringing this admirable Cooking Apparatus to perfection, and are now prepared to furnish the public with the very best article ever invented This Stove has had three of the highest premiums awarded to it that were ever awarded to a Cooking Stove; at the Fair of the American Institute in the City of New York a Silver Medal was awarded; at the great State Fair at Poughkeepsie, N Y 1844, where was the greatest competition ever known, the first premium was awarded to it and lastly at the Exhibition and Fair in Boston a Silver Medal was awarded to it This celebrated Stove stands unrivalled in Boston New York and other places where it is in extensive use, 1800 of them were retailed by one establishment in Boston the past year, for all cooking and heating purposes it far surpasses any other Cooking Apparatus that can be produced The oven is extremely large, being of sufficient capacity to admit six large pie plates or six large loaves of Bread, or even the largest pudding or bean pots in use at the same time In addition to the advantages it has over other Stoves for boiling, baking, washing, frying, heating irons, &c, it is acknowledged by all who use them that they have the best arrangement for Baking and Roasting that has ever been in use, the steam (from all the cooking) being carried off effectually This Stove being composed of two parts can be disconnected in one moment's time, so as to make two perfect Stoves which is of great value in warm weather as the summer stove which makes a handsome parlor stove may be used in the sitting or dining room—and the other part in the back kitchen for Boiling or Washing, and in the fall of the year the two parts may be connected together as is represented above In fact it is impossible to tell one half of the story about this Stove, and all who feel interested to get a first rate Cooking Apparatus are respectfully requested to call at our Store and examine the above where will be found a first rate assortment of Cook Stoves Ranges, Hot-Air Furnaces and Fixtures, Tin Ware Sheet Lead Pumps Lead Pipe, Fire Frames, &c

HENRY A. WOOD & CO.,
Nos. 1, 2 & 3 Broad-Street,
HEAD OF MERCANTILE BLOCK, BANGOR.

Dr. S. O Richardson's
CONCENTRATED
Sherry Wine Bitters.

THE Proprietor of this Medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system.

It cannot be denied by those who have become acquainted with the singular virtues of these Bitters that they possess a pre-eminence over all others now in use, for the diseases which they profess to cure

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels, in youthful adult and declining life

The extensive sympathies which subsist between these and every other part of the living body are the foundation of nervous diseases of all kinds Irregular Appetite, Langour, Drowsiness Wandering Pains Headache Lowness of Spirits &c

And these in their turn give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath, Jaundice Piles Fevers Inflammatory Humors, Coughs and a host of diseases which embitter life and poison all sources of enjoyment

The distinguished character of these Bitters is most striking, their operation being more or less powerful according to the *violence* of the disease When used in appropriate quantity, in cases of slight derangement of the Stomache and Bowels caused by costiveness or a slight bilious difficulty and the like, whose nature needs assistance to prevent more serious consequences, they will be scarcely felt

On the contrary, in obstinate cases, they frequently operate more powerfully, causing two or three evacuations daily, until the circulating fluid becomes purified This accomplished, they act on the system in connection with our food each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor

DR. UPHAM'S
Vegetable Internal Remedy
FOR THE PILES!
A Cure for Life Secured.

For the cure of Piles, Inflammation of the Liver and Spleen Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder Inflammatory and Mercurial Rheumatism, Impurity of Blood Weakness and Inflammation of the Spine, and for the relief of Married Ladies'

THE VEGETABLE PILE ELECTUARY Invented by Dr A Upham, a distinguished physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public

Mark this it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles either Bleeding or Blind Internal or External and probably the only thing that will There is no mistake about it It is a positive cure, speedy and permanent It is also a convenient medicine to take, and improves the general health in a remarkable manner

Each box contains twelve doses, at 8 1 3 cts per dose It is very mild in its operation and may be taken in cases of the most acute inflammation without danger All external applications are in the highest degree disagreeable inconvenient, and offensive, and from the very nature of the disease, temporary in their effects This Medicine attacks the *disease at its source*, and removes the cause renders the cure certain and permanent,

INFLAMMATORY DISEASES—Although the Electuary was originally prepared for the cure of PILES, yet it has proved itself to be a medicine far superior to all others in all diseases of an Inflammatory character, with a determination of blood to any particular part or organ In Inflammation and Congestion of the Liver and Spleen Inflammation Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder in Inflammatory and Mercurial Rheumatism, it is the best Medicine ever discovered

IMPURITIES OF THE BLOOD—For all impurities of the blood arising from the imprudent use of mercury or other causes, for all Diseases of the Skin and Scrofulous Affections, in all cases where the blood is powerfully determined to the Head, producing dizziness and distress, Dr Upham's Electuary is entirely invaluable

TO MARRIED LADIES—Married Ladies are almost invariably subject to that painful and injurious disease, the PILES, with consequent inflammation of the stomach bowels and spine, weakness of the back flow of blood to the head, &c The Electuary is perfectly safe for Pregnant Ladies, and the most useful Cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases, without pain or irritation, but will ensure an easy time, a safe delivery and a sound constitution in the offspring

CURE FOR THE PILES GUARANTIED—The Electuary contains no mineral medicine, no Aloes Colocynth, Gamboge, or other powerful and irritating Purgative No fear of taking cold while under its influence, no change, in diet is necessary If taken according to the directions *A cure for Life is Guarantied*
